WORK EXPERIENCE

Kitchell

Sacramento, CA

Data Analyst

Jan 2024 - Present

- Designed and deployed an enterprise-level Power BI dashboard that delivers company-wide Financial and Employee KPIs across actuals, planned, and forecasts, creating a single source of truth for business leaders and improving visibility and decision-making across the organization by 35%
- Developed multiple project-level Power BI dashboards that delivered reporting and analytics across cost, schedule, and project controls, helping project teams identify overruns 40% earlier, track performance trends, and make proactive adjustments throughout the project lifecycle
- Collaborated with the implementation manager to design and standardize an end-to-end analytics process, replacing manual spreadsheets with scalable, system-driven data processes that improved data quality and reporting consistency by 40%
- Led the design and implementation of an automated project setup application, developing the forms, workflow, and business logic that connected accounting, marketing, and project teams, reducing setup time by 40% and improving process consistency
- Developed standardized, reusable data models and dashboard templates that reduced report preparation time by 40% and improved KPI consistency across the organization

Yamaha Motors Corp.

Cypress, CA

Transportation Data Analyst

Oct 2021 - Nov 2023

- Developed automated inventory and cost reporting processes using SAP and SQL to generate and export key data, resulting in a 50% increase in domestic transportation operational efficiency for supply chain management
- Created 5 data models and 25+ dashboards using Power BI that improved visibility by 80%, enabling stakeholders to understand key metrics such as On-Time Delivery, Damage and Loss, and Cost per Shipment
- Developed and executed ETL pipelines utilizing SQL and Power Query, simplifying the data collection process and significantly improving accuracy, resulting in a 100% reduction in search query time for data processing

Starway Transport

Irvine, CA

Assistant Manager, Analytics

Jan 2021 - Jun 2021

- Managed and streamlined daily data operations for a team of 5 coordinators, conducting training sessions on leveraging Excel to make data-driven decisions, resulting in a 20% increase in efficiency
- Conducted comprehensive performance reviews for all 5 team members, analyzing key transportation metrics and providing actionable recommendations, which resulted in a 20% increase in overall productivity
- Created internal dashboards using Tableau to visualize core business KPIs, improving visibility into overall financial performance and resulting in a 20% increase in data accessibility and efficiency for the organization

Logistics Analyst

May 2017 - Dec 2020

- Developed 50+ dashboards for large-scale accounts, resulting in a 20% increase in transportation operational efficiency for customers in Tableau
- Generated comprehensive daily reports analyzing customer logistics metrics and target goals, resulting in a 15% increase in on-time deliveries
- Designed and executed a cost analysis model to identify areas of inefficiency in transportation operations, resulting in a 5% reduction in freight costs

EDUCATION

Sacramento State University

Sacramento, California

Master of Science in Business Analytics (Expected Completion: Dec 2026)

Bellevue University

Bellevue, Nebraska

Bachelor of Science in Data Science (GPA: 4.0)

TECHNICAL SKILLS & CERTIFICATIONS

Skills: SQL, Python, Power BI, Power BI Report Builder, Tableau, Excel, Azure, SharePoint, Power Automate

Certifications: Microsoft Certified: Power BI Data Analyst Associate (PL-300), Coursera (Google Data Analytics Certificate, Google Project Management Certificate, IBM Data Analyst Professional Certificate, IBM Data Science Professional Certificate, Google UX Design Certificate, Google IT Support Certificate)
